30 Histopathology and Cytopathology Webinars in the East of England

Organisers: Drs Preethi Gopinath, Maria O'Donovan, Vasi Sundaresan

Target Audience:

Consultant Histopathologists and Trainees in the UK and overseas who want to refresh or update their current knowledge.

Course Content:

Each webinar will cover a specialty topic with teaching centred on scanned slides. The emphasis will be on interpreting the histology in the context of clinicopathological correlation. The level of difficulty of the cases will be varied and will aim to imitate real-life cases, ranging from straight-forward diagnoses to complex cases that require further work and central review. The case selection will be similar to what may be seen in an EQA setting.

Delivery of Webinars:

Due to the ongoing Covid-19 pandemic, the course organisers have had to adjust to delivering a totally virtual webinar series of teaching sessions.

These will be delivered on the Zoom platform enabling anyone with internet access and an Android or Apple device to access the webinars.

The webinar sessions will run from 10am to 12pm on Saturdays to accommodate overseas delegates and the faculty to deliver the webinars. Our speakers will present 20 cases highlighting important diagnoses in routine practice and will discuss relevant management issues and provide clinicopathological correlation.

These sessions will be recorded and posted on Vimeo with appropriate links for those wishing to review the sessions.

Those with iPads or Android tablets can have the course material uploaded automatically a week in advance on the tester app (appstudio). The answers to the slides and the videos hosted on Vimeo will be available for viewing on the appstudio platform which is username and password protected.

CPD Points

We believe the webinar will be a useful resource containing a range of diagnostic material across all main subspecialties in Histopathology and Cytopathology. Each webinar will last for 2 hours amounting to 2 CPD points/webinar. Delegates will be able to view approximately 20 slides before sessions and writing a reflective note will enable a further CPD point per session. For those Consultants that view slides before the Webinar and attend the entire programme, the total number of CPD points will be 70 (40 RCPATH approved CPD points and 30 CPD points for reflective notes).

Speaker list- Faculty – Nationally and Internationally renowned experts and RCPATH dataset authors:

Specialty – Topics Covered	Speaker	Number of Webinars
Gastrointestinal Pathology - LGI	Prof Neil Shepherd	(1)
Gastrointestinal Pathology - UGI	Prof Marco Novelli	(1)
Soft Tissue	Prof Adrienne Flanagan	
Gynaecological Pathology	Prof Naveena Singh	(2)
Lympho-reticular Pathology	Dr Hibah Ali	(1)
Medical Renal Pathology	Dr Ranmith Perera	(1)
Dermatopathology – Tumours	Dr Hazem Ibrahim	(1a)
Dermatopathology – Inflammatory skin	Dr Hazem Ibrahim	(1b)
Non-gynae Cytology	Dr Maria O’Donovan	(6)
Lung – Interstitial Lung Disease	Dr Doris Rassel	(1)
Lung – Pulmonary Pathology	Dr Martin Goddard	(1)
Urological Pathology	Dr Anne Warren	(1)
Breast Pathology	Dr Elena Provenzano	(1)
Molecular Pathology	Dr Olivier Giger	(1)
Head and Neck Pathology	Dr Alison Marker	(1)
Approach to Frozen Sections	Dr John Grant	(1)
Classification of Neuroendocrine Tumours	Dr Tu Vinh Luong	(1a)
GI Tract and Lung		
Liver & Pancreatic Pathology	Dr Tu Vinh Luong	(1b)

Webinars will be conducted on Saturdays, 10am-12pm.

Approximately 20 cases will be covered on most of the webinars. A Word document with hyper-links to scanned slides will be sent to attendees prior to the Webinar. Delegates will dial in on Zoom. Sessions will be recorded and links posted on Vimeo for access by delegates. An iPad App is available and can be downloaded for weekly content updates.

Updated Programme

		Speaker	Topic
	October 2020		
1	17th	Prof Neil Shepherd	Lower GI Tract
2	24th	Prof Naveena Singh (1)	Gynae Pathology 1
3	31st	Prof Marco Novelli	Upper GI Tract
	November		
4	7th	Dr Tu Vinh Luong (1a)	Neuroendocrine Tumour Classification (Lung & GI Tract)
5	14th	Dr Kieren Allinson Dr Sarah Aitken Dr Laszlo Igali	Pathology of COVID19 Artificial Intelligence in Pathology
6	21st	Dr Alison Marker (1a)	Head and Neck & Endocrine 1
7	28th	Dr Ranmith Perera	Interpretation of medical renal biopsies
	December		
8	12th	Dr Hazem Ibrahim (1a)	Inflammatory skin pathology

9	19th	Dr Hazem Ibrahim (1b)	Tumours in Dermatopathology
	January 2021		
10	9th	Dr Elena Provenzano	Breast pathology
11	16th	Dr Tu Vinh Luong (1b)	Liver and Pancreas Pathology
12	23rd	Dr Anne Warren (1a)	Urology 1
13	30th	Dr Doris Rassl	Interstitial Lung Disease
	February		
14	6th	Dr Martin Goddard	Pulmonary Tumour Pathology
	March		
15	6th	Dr Alison Marker (1b)	Head and Neck & Endocrine 2
16	13th	Prof Naveena Singh (1b)	Gynae Pathology 2
	May		
17	8th	Prof Adrienne Flanagan	Soft Tissue and Bone Pathology
18	15th	Dr Anne Warren (1b)	Urology 2
19	22nd	Dr Hibah Ali	Lymphoreticular Pathology
	June		
20	5th	Dr Olivier Giger	Molecular Pathology
21	12th	Dr John Grant	Frozen sections
22	19th	Dr Maria O'Donovan	Cytology 1*
23	26th	Dr Maria O'Donovan	Cytology 2*
	July		
24	3rd	Dr Maria O'Donovan	Cytology 3*
25	10th	Dr Maria O'Donovan	Cytology 4*
26	17th	Dr Maria O'Donovan	Cytology 5*
27	24th	Dr Maria O'Donovan	Cytology 6*
	August		
28	14th	Dr Sarah Lower	Mock Exam
29	15th	Drs Preethi Gopinath & Salma Al-Ramadhani	Macroscopic station Written OSPE & Management station
30	21st	Drs Anne Warren & Vasi Sundaresan	Mock Exam

*All sessions will have pre-scanned histology slides for viewing prior to the webinar. However, since Cytology slides have been proven to be challenging, dependent on the quality, these cases will be discussed in real time and images projected from a microscope.

How to maximise your CPD points: Get 40+ CPDs – follow the EoE Webinars on Saturdays on an app or catch up later in the week and follow the mixed session. Preview the cases, write a reflective note and earn an additional CPD, convert them to 70 CPD points.

Who should attend: Consultants and trainees at ST3 level upwards preparing for the FRCPath examination.

To register and book:

Register for the course – [Press here](#)

Make payment for the course: ~~Press here~~

Consultants: £600

Trainees: £450

Single taster session: £75

App Download (for those signing up for the full programme):

Search for Quark Express and look for the appstudio app.

Contact: HistopathologyCPD@gmail.com for username and password.

Once registered, there will be a weekly update of the appstudio app with clinical details and web links to cases for discussion and Zoom App invite and appropriate password.

A word document can be likewise downloaded weekly and annotated digitally or printed and annotated and stored for later upload to your CPD portfolio.

Weekly updates of:

Cases for discussion next week – as a downloadable and annotatable word document
